Section 10 Assignment (91 points)

Show your work, if possible, on the worksheet. If the answer is wrong and you've shown your work, you can receive partial credit. But if the answer is wrong and you haven't shown your work, there will be no credit for that question.

1. (18 points) For the given graph G:

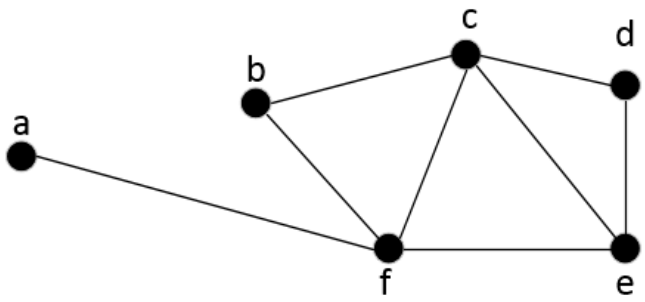

Figure 1: Graph G

   a. (2 pts) List the vertex set and the edge set of **G**.

      V = {a, b, c, d, e, f}

      E = {{a, f}, {b, f}, {b, c}, {f, c}, {f, e}, {c, e}, {c, d}, {d, e}}

   b. (2 pts) Which, if any, vertices are adjacent to vertex **e**?

      f, c, d

   c. (2 pts) List the neighbors of vertex **c**.

      b, f, e, d

   d. (2 pts) What is the degree of vertex **f**?

      4

   e. (2 pts) What is the total degree of **G**?

      = 16

   f. (2 pts) Is G a regular graph? Why or why not?

      No

   g. (3 pts) Is K_3 a subgraph of G? If so, name the vertices in the subgraph.

      {b, c, f} and {c, d, e} and {c, f, e} are all K_3 subgraphs of G

   h. (3 pts) Is K_4 a subgraph of **G**? If so, name the vertices in the subgraph.

      No

2. (18 points) For the given graph H:

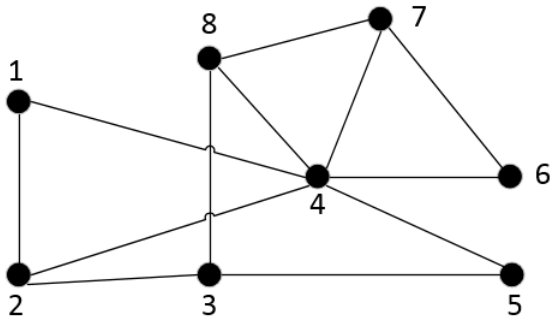

Figure 1: Graph H

a. (2 pts) List the vertex set and the edge set of **H**.

V = {1, 2, 3, 4, 5, 6, 7, 8}

E = { {1, 2}, {1, 4}, {2, 4}, {2, 3}, {3, 8},{3, 5}, {4, 8},{4, 7}, {4, 6},{4,5}, {6, 7},{7, 8}}

b. (2 pts) Which, if any, vertices are adjacent to vertex **6**?

4, 7

c. (2 pts) List the neighbors of vertex **8**.

3, 4, 7

d. (2 pts) What is the degree of vertex **4**?

6

e. (2 pts) What is the total degree of **H**?

= 24

f. (2 pts) Is **H** a regular graph? Why or why not?

No

g. (3 pts) Is K_3 a subgraph of **H**? If so, name the vertices in the subgraph.

{1, 2, 4} and {4, 8, 7} and {4, 7, 6} are all K_3 subgraphs of G

h. (3 pts) Is K_4 a subgraph of **H**? If so, name the vertices in the subgraph.

No

3. (30 points) For the given tree T:

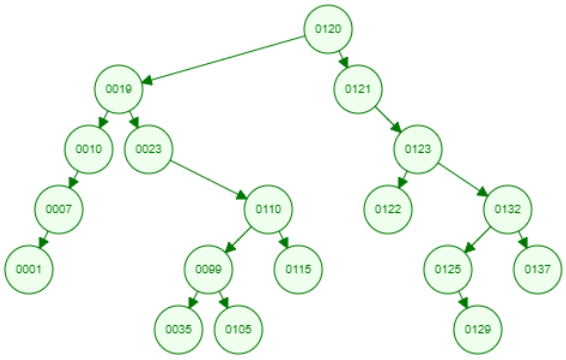

Figure 2: Tree T

a. (10 pts) Give the preorder traversal of the tree.

Preorder

0120, 0019, 0010, 0007, 0001
0023, 0110, 0099, 0035, 0105
0115, 0121, 0123, 0122, 0132
0125, 0129, 0137

b. (10 pts) Give the inorder traversal of the tree.

Inorder

0001, 0007, 0010, 0019, 0023
0035, 0099, 0105, 0110, 0115
0120, 0121, 0122, 0123, 0125
0129, 0132, 0137

c. (10 pts) Give the postorder traversal of the tree.

Postorder

0001, 0007, 0010, 0035, 0105
0099, 0115, 0110, 0023, 0019
0122, 0129, 0125, 0137, 0132
0123, 0121, 0120

4. (10 points) For tree T find the following:
   a. (2 pts) List all vertices of height 4.
      0001, 0099, 0115, 0125, 0137

   b. (2 pts) List all leaf vertices.
      0001, 0035, 0105, 0115, 0122, 0129, 0137

   c. (2 pts) List any siblings of vertex 0099.
      0115

   d. (2 pts) What is the height of the subtree with root vertex 0110?
      Height = 2

   e. (2 pts) If any exist, show 1 subtree that is not a balanced tree (do not use vertex 0120).
      One example of a subtree that is not balanced is rooted 0123, there are more.

5. (15 points) For the weighted graph W, show the minimal spanning tree of the following weighted graph using Kruskal's algorithm.

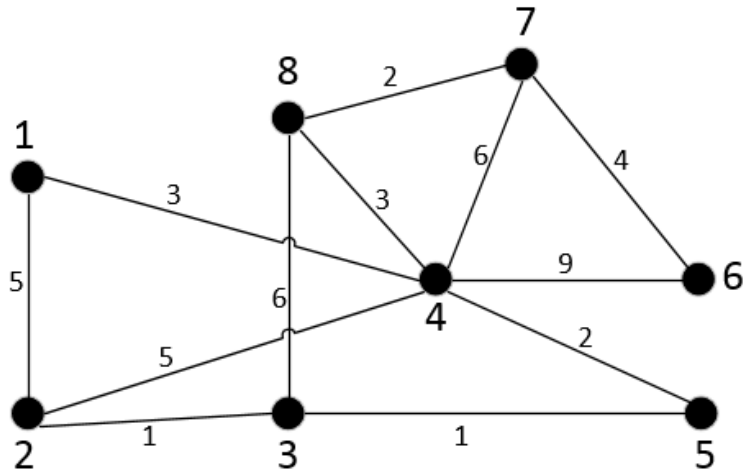

Figure 3: Weighted graph W
